

Blackberry Kush - Berry-Flavored Indica Bliss for Bulk & Retail Buyers

Blackberry Kush is a deliciously sedative indica-dominant strain created by combining *Afghan* with *Blackberry*. The result? A full-bodied, heavy-hitting experience with rich flavors of ripe berries, earthy hash, and subtle diesel notes. Its calming properties and vibrant color profile make it a favorite among cannabis enthusiasts, medical users, and wholesale distributors alike.

Retail consumers love its ability to melt away stress and promote restful sleep, while bulk buyers and dispensaries appreciate its high resale value, consistent quality, and unmistakable bag appeal. All batches of **Blackberry Kush** are organically grown, hand-trimmed, and rigorously tested to meet international cannabis standards.
