How Do I Use THCA Crumble for the Best Experience?

Using THCA crumble is pretty straightforward, but there’s an art to it if you want to max out the flavor and potency. You’ll need a dab rig or a vaporizer that can handle concentrates. Scoop a small amount—start with a grain of rice-sized piece if you’re new to this—using a dab tool. Heat your nail or banger to around 450-550°F (too hot and you’ll burn off the terpenes; too cool and it won’t fully activate). Drop the crumble onto the nail, inhale slowly, and let the Jager profile wash over you with its earthy sweetness. Gold Canna’s crumble is pure and potent, so a little goes a long way. Store it in a cool, dark place to keep it fresh, and always use clean gear for the best taste.
