About Jealousy

Jealousy – A Smooth and Euphoric Balanced Hybrid

Jealousy is a balanced hybrid strain admired for its rich flavor profile and deeply satisfying effects. Born from the renowned genetics of Sherbert Bx1 and Gelato 41, Jealousy delivers a complex blend of creamy sweetness, subtle citrus, and earthy fuel undertones. This award-winning cultivar has gained popularity among cannabis enthusiasts for its flavorful smoke and its ability to offer both uplifting mental effects and calming physical relaxation in one refined experience.

Terpene Profile

Jealousy’s layered aroma and balanced effects are driven by its expressive terpene composition:

Caryophyllene: Adds a bold, peppery spice that may help ease tension and promote physical comfort.

Limonene: Contributes bright citrus notes that support mood elevation and stress relief.

Myrcene: Brings earthy, herbal undertones that enhance relaxation and body ease.

Linalool: Offers subtle floral hints that complement its calming, soothing qualities.

Effects

Jealousy typically begins with a wave of cerebral euphoria, encouraging positivity, creativity, and a relaxed mental state. As the initial uplift settles, a smooth body relaxation follows, gently melting away stress without immediately leading to heavy

sedation. This harmonious balance makes Jealousy suitable for social gatherings, creative pursuits, or unwinding in the evening while remaining present and engaged.

With its dessert-like flavor and well-rounded effects, Jealousy stands out as a premium hybrid choice for those seeking both mental uplift and physical comfort. Whether you're enhancing a laid-back afternoon or easing into a restful night, this balanced hybrid delivers a flavorful and elevated cannabis experience.
