Our **Blueberry THCa Flower** stands out as a premium **wholesale THCa flower** selection built for dispensaries, distributors, and hemp retailers searching for high-performance strains that sell quickly. With **28.4% THCa** and exceptional Indica-forward genetics, this cultivar offers dense buds, rich color, and strong commercial appeal.

Indoor-grown in controlled small batches, every harvest of **bulk Blueberry THCa** delivers consistent cannabinoid levels, vibrant terpene expression, and dependable quality. If you're looking to **buy THCa flower in bulk** with freshness and potency guaranteed, Blueberry remains a proven favorite in the national B2B wholesale market.

Lab Results & Potency

Every batch undergoes full-panel third-party testing to ensure purity, compliance, and accurate labeling.

Potency Highlights:

- **28.4% THCa**
- High terpene concentrations (dominant in Myrcene, Pinene, and Caryophyllene)
- Delta-9 THC below legal Farm Bill limits
- Clean, consistent cannabinoid expression

These results ensure the product qualifies as **premium THCa flower wholesale** and is ready for compliant national distribution.

Flavor Profile & Effects

Blueberry is loved for its **sweet berry aroma, creamy earthiness, and subtle floral undertones**—a terpene profile that retailers consistently report as a top seller.

Flavor Notes:

- Blueberry sweetness
- Creamy fruit
- Subtle floral and earthy tones

Expected Effects:

- Deep body relaxation
- Calming, soothing experience
- Ideal evening-focused strain

This makes Blueberry a strong-performing SKU for storefronts, delivery platforms, and online hemp shops.

Why Wholesale Buyers Choose Blueberry

Blueberry consistently ranks among the best-selling cultivars in the **legal THCa flower for sale** wholesale sector. Retailers appreciate its stable demand, strong aroma, and high potency.

Wholesale Benefits:

- Indoor-grown for premium structure
- Small-batch, high-terpene production
- Excellent shelf appeal and aroma
- Strong retail margins
- Offered in **bulk THCa flower** pounds or multi-pound wholesale formats

For B2B buyers seeking reliability, potency, and fast turnover, Blueberry is a top-tier choice.

Compliance & Shipping

Our Blueberry THCa Flower is **100% Farm Bill compliant**, containing <0.3% Delta-9 THC on a dry-weight basis. Every wholesale order includes complete COAs and compliance documentation.

Shipping Advantages:

- Fast nationwide B2B shipping
- Discreet, secure packaging
- COAs included with each batch
- Wholesale pricing available for all pound and multi-pound orders

FAQs

Is Blueberry THCa Flower legal to ship?
Yes. All batches are Farm Bill compliant and ship with third-party COAs showing <0.3% Delta-9 THC.

What are the wholesale order minimums?
Bulk pricing begins at 1 pound, with additional discounts available for larger wholesale quantities.

Is 28.4% THCa considered high potency?
Yes—28.4% THCa places Blueberry in the top-tier potency category for hemp-derived THCa flower.

Do you provide COAs?
Absolutely. Every batch includes full-panel lab reports.

Is this Blueberry indoor-grown?
Yes. Indoor cultivation ensures consistent potency, structure, and aroma.

Do you offer recurring wholesale supply programs?
Yes—ongoing contracts and scheduled bulk shipments are available upon request.
