About Death Star

Death Star – Earthy, Resinous Indica-Dominant

Death Star is an indica-dominant hybrid known for a grounded, resin-forward character that balances deep relaxation with clear-headed ease. Dense, frosty nugs show forest-green and deep purple hues threaded with bright orange pistils and a thick coating of trichomes. The aroma and flavor open with diesel and earthy pine, followed by sweet herbal spice and a citrusy finish, delivering a layered, natural profile that reads premium and refined.

Terpene Profile

The aroma and effects of Death Star are shaped by a focused terpene blend:

- **Myrcene**: Offers warm, earthy notes that deepen relaxation and round out the strain’s herbal character.
- **Caryophyllene**: Brings peppery, spicy accents and a weighty, grounding presence to the nose and taste.
- **Limonene**: Adds a clean citrus brightness that lifts the bouquet and balances darker, diesel tones.

Effects

Death Star provides a steady, enveloping calm that settles the body while keeping the mind composed and observant; it’s well suited for evenings or quiet afternoons

when you want to unwind without losing clarity. The experience feels tactile and mellow—heavy in comfort but refined in sensation, with a lingering, aromatic finish.

Why Choose Death Star THCA Flower?

- **Verified potency:** 23.99% THCA, third-party lab tested with a COA.
- **Signature flavor:** a rich, distinctive flavor.
- **Indica experience:** true-to-strain indica effects you can rely on.
- **Farm Bill compliant:** hemp-derived and under 0.3% delta-9 THC by dry weight.

Death Star THCA Flower

What Is THCA Flower?

THCA flower is premium hemp-derived cannabis flower naturally rich in tetrahydrocannabinolic acid (THCA). In its raw form THCA is non-intoxicating; when heated through smoking or vaping it converts to THC (decarboxylation), delivering the full experience. Every batch is third-party lab tested and compliant with the 2018 Farm Bill.

How to Enjoy Death Star THCA Flower

Grind a small amount and enjoy it in a pipe, bong, joint, or dry-herb vaporizer. Store the buds in an airtight glass jar away from light and heat to preserve the terpenes, aroma, and potency.

The Gold Canna Quality Promise

Every order of Death Star THCA Flower is held to the same standard: premium, hand-selected product, third-party lab testing through accredited laboratories, and a Certificate of Analysis you can review for full transparency on cannabinoids and purity. We vacuum-seal and discreetly package each order for freshness, then ship quickly with tracking so it arrives in peak condition. If you have questions about potency, effects, or the best way to enjoy it, our team is glad to help you choose the right option with confidence.

Death Star THCA Flower FAQ

How potent is Death Star THCA Flower?

This batch of Death Star THCA Flower tests at 23.99% THCA. THCA converts to THC when heated, so treat this as a high-potency product and start low.

Is it legal?

This is a hemp-derived product containing less than 0.3% delta-9 THC by dry weight, consistent with the 2018 Farm Bill. State laws vary and change — confirm your local rules before ordering. Must be 21+ to buy.

How is it shipped?

Death Star THCA Flower ships discreetly and securely in 28 grams ($54). Learn more about what THCA is.
