

Top-Tier Bulk THCa Flower with Unique Flavor & Potency

Introducing our **Hella Jelly THCa flower** — a sativa-dominant hybrid that combines vibrant flavors, powerful effects, and exceptional lab-proven potency. If you're a distributor, retailer, or B2B buyer hunting for premium THCa flower for sale, this exotic strain delivers. With every batch lab-tested, legally compliant, and packaged for bulk orders, this Hella Jelly is built for scaling.

What Makes Hella Jelly Bulk THCa Flower Stand Out

- Highly potent THCa levels: typically in the **mid-20s to 30%+ range**, ensuring high potency THCa buds.
- Third-party lab-tested: verified for cannabinoids, residual solvents, heavy metals, microbes — full COA included.
- **Farm Bill compliant:** delta-9 THC always < 0.3% dry weight, making it legal under the 2018 Farm Bill for hemp-derived THCa flower.
- Sativa-dominant hybrid genetics (Notorious THC × Very Cherry × Jelly Rancher lineage) giving both euphoric and uplifting effects.
- Flavor / aroma profile: rich berry, sweet cherry, citrus zest, tropical jelly, with candy-like undertones and pungent gas/fuel notes depending on phenotype.
- Appearance: neon-green dense buds, orange pistils, heavy trichome coverage — visually stunning in jars.

Why Wholesale Buyers Choose Our Hella Jelly THCa Flower

When you buy Hella Jelly THCa flower in bulk from us, you're getting more than just flower—you're getting a high-margin, high-demand product:

- Bulk THCa flower pricing tiers (pounds, kilos, pallets) enable higher profit per unit.
- Reliable stock availability for consistent supply year-round.
- Discreet, secure packaging and fast fulfillment: orders ship in vacuum-sealed, odor-proof packaging; often processed within 24-48 hours.
- Private label and custom packaging options for retailers or brands.
- Full batch traceability: each lot carries its COA so you can provide transparency to your customers and ensure compliance.

FAQs: Hella Jelly THCa Flower Wholesale

Is Hella Jelly THCa flower legal to sell across the U.S.?

Yes. As long as the flower contains less than 0.3% delta-9 THC by dry weight, it is legal under the 2018 Farm Bill. We provide full lab testing to confirm compliance.

What is the typical THCa percentage for your Hella Jelly batches?

Our Hella Jelly bulk flower typically tests in the **mid-20s to low 30% THCa**, depending on phenotype and grow environment.

How fast do wholesale orders ship?

Orders are prioritized; once confirmed, most wholesale Hella Jelly shipments are processed and on their way within 24-48 hours.

Can I get samples or smaller quantities before bulk orders?

Yes—to ensure satisfaction with aroma, potency, and phenotype, we offer sample or smaller lot orders in many cases, with credits or discounts available when you scale up.

Are COAs provided with every bulk lot?

Absolutely. Every batch has third-party lab results for potency, purity, pesticide, heavy metals, and microbial safety.

Do you offer custom packaging or private label for Hella Jelly?

Yes. We provide flexible packaging options, branding support, and private label services for clients purchasing wholesale THCa flower.
