THCa Sugar / Crumble – Premium Bulk THCa Concentrate for Wholesale Buyers

Our **THCa Sugar / Crumble** offers the perfect combination of purity, texture, and versatility. Designed for extractors, manufacturers, and dispensaries, this bulk THCa concentrate features sparkling sugar-like crystals blended into a semi-dry crumble consistency — making it both potent and easy to handle.

Each batch is refined for consistency and potency, producing a high-quality concentrate that maintains the true character of THCa while offering flexibility for diverse product applications.

Distinctive Texture & Potency

THCa Sugar / Crumble stands out for its crystalline structure and honeycomb-like crumble texture. This makes it ideal for:

- Dabs and direct concentrate use
- Vape cartridge formulation
- Infused product development
- Private label manufacturing

Key Specifications:

- **Purity:** ≥ 99% THCa
- **Texture:** Grainy, sugar-like crumble

- **Color:** Pale gold to amber
- **Aroma:** Naturally rich terpenes, customizable upon request
- **Origin:** Hemp-derived and federally compliant

This versatile concentrate is equally suited for large-scale extraction labs and boutique brands seeking top-shelf concentrate offerings.

Lab-Tested & Verified Purity

Every lot of **THCa Sugar / Crumble** undergoes rigorous **third-party lab testing** to ensure compliance and consistency. We provide a **Certificate of Analysis (COA)** for every batch confirming:

- THCa potency ≥ 99%
- Delta-9 THC content < 0.3% (compliant with hemp regulations)
- Absence of residual solvents
- No detectable heavy metals or pesticides
- Microbial and mycotoxin safety

Our transparent documentation ensures your business stays compliant and your customers stay confident.

Wholesale THCa Sugar / Crumble Pricing

We specialize in **THCa bulk pricing** tailored for wholesale partners. Whether you're buying small-batch kilos or long-term contract volumes, our pricing structure is built to support scalability and profitability.

Example Tiered Pricing:

Order Volume	Price Level	Ideal For
500g – 1kg	Wholesale	Retail dispensaries, small brands
1–5kg	Bulk pricing	Manufacturers, extractors
5kg+	Enterprise	Distributors, contract processors

Request a **custom quote** for monthly supply or white-label partnership opportunities.

Why Choose Our THCa Sugar / Crumble

- 99%+ THCa purity with COA verification
- Lab-tested, hemp-derived, and fully compliant
- Competitive bulk pricing with consistent availability
- Stable, user-friendly crumble texture for various formulations
- Perfect for dabs, vapes, edibles, and concentrates
- Reliable fulfillment with global wholesale support

When you choose us as your **THCa supplier**, you gain access to not only premium concentrates but also a trusted partner who understands B2B logistics, compliance, and cannabinoid market dynamics.

Applications for Bulk THCa Sugar / Crumble

- **Dabbing Concentrates:** Potent, crystalline crumble for premium lines
- **Vape Manufacturing:** Smooth integration into terpenes and distillates
- **Infused Edibles & Beverages:** Easy to dissolve or mix at formulation stage
- **Topical & Wellness Products:** Use as a controlled cannabinoid input
- **Private Label Production:** Scalable material for branded SKUs

Product Lab Analysis Summary

Test Category	Result
THCa Purity	≥ 99%
Delta-9 THC	< 0.3%
Heavy Metals	Pass
Residual Solvents	Non-detectable
Pesticides	Pass
Microbial Safety	Pass
COA Provided	Yes – per batch

Storage & Handling

Keep **THCa Sugar / Crumble** sealed in an airtight, light-proof container. Store between **15–20°C (59–68°F)** in a dry environment. Avoid exposure to heat or sunlight to preserve terpenes and crystal structure.

For long-term stability, refrigeration is recommended.

FAQ

What is THCa Sugar / Crumble?
THCa Sugar / Crumble is a premium concentrate featuring THCa crystals in a sugar-like or honeycomb crumble form. It offers high potency, light texture, and strong aromatic profile — ideal for dabs, vapes, or infused formulations.

Is THCa Sugar / Crumble psychoactive?
No, THCa is non-psychoactive until heated. Upon decarboxylation (as in dabbing or vaping), it converts to THC and produces psychoactive effects.

Is THCa Sugar / Crumble lab-tested?
Yes. Every batch includes a third-party **Certificate of Analysis (COA)** verifying potency, compliance, and purity.

Can I purchase THCa Sugar / Crumble in bulk?
Absolutely. We offer wholesale and bulk THCa Sugar / Crumble with volume-based discounts, starting at 500g and scaling to multi-kilogram orders.

How is THCa Sugar / Crumble different from THCa Diamonds?
THCa Diamonds are solid, crystal-like structures, while THCa Sugar / Crumble has a grainy, semi-dry texture. Sugar/Crumble offers easier handling and a slightly higher terpene retention.

How should THCa Sugar / Crumble be stored?
Keep sealed, cool, and away from light and oxygen. Proper storage preserves terpene aroma, crystal structure, and potency.

Our **THCa Sugar / Crumble** delivers premium quality, lab-tested purity, and reliable consistency for brands, extractors, and manufacturers. With a 99%+ THCa content, crumble-style texture, and terpene-rich aroma, it’s the ideal concentrate for top-shelf product development and profitable wholesale growth. Partner with us today — your trusted **THCa supplier** for bulk concentrate excellence.
